

Year 2 Fairtrade

English

This half term we are going to be looking at food and farming, specifically Fairtrade.

We will be learning and writing about what Fairtrade is and how products end up on the shelves in our shops.

We will be using poetry, information texts as well as accessing the internet to assist us in our learning.

We will be producing a booklet all about Fairtrade for display.

Science

In science, we will be learning all about plants!

We will be learning how plants grow, experimenting with what they need to make them grow healthily and what happens when they do not have all their needs met.

We will be growing our own vegetables in our allotment.

Home learning

Home learning will be given out on Wednesday and will need to be in for the following Monday. Spellings, maths and questions of the week will be included.

We really appreciate all your effort reading with your children and learning spellings!

Art

In this half term, we will be creating images that link to Fairtrade and using Fairtrade products!

We will be learning about artists who use products to create art and trying to replicate their artwork.

We will be learning about texture, colours and perspective.

Our value for this half term is:

Joyfulness

Maths

In maths, we will be learning about division and multiplication, extending our knowledge using 2s, 5s and 10s as well as solving word problems with multiplication and division.

We will also be focusing on money and understanding how Fairtrade has a positive impact on wages for the farmers.

PSHE

In PSHE, we will be focusing on the theme 'Living in the Wider World'. This will involve us looking at Safeguarding for Children within our school environment, along with looking at dealing with money and charities.

P.E

We are outside for PE this half term (hopefully) learning new skills in tennis and preparing for Sports Day with multi-skills.

Year 2 P.E days are:

Swordfish - Tuesday and Friday

Seahorse - Mondays and Tuesdays
